### Daniel Ritchie

I have spent my entire life (from birth) without arms and have genuinely struggled to fit in and feel accepted due to my difference. I was saved at 15 years old and God truly began a remarkable work in my life. I started to understand that just as the blind man in John 9, God could use my disability for His glory and for me to use it as a tool to share the gospel with others. Psalm 139 has been instrumental to me in that I was not an accident or mutation to be born the way that I was, but rather God formed and shaped me according to His will. Philippians 4 has been important in my life and ministry in knowing that God provides me the strength to endure and overcome even in times when all seems completely lost. I try to show teens that even a person like me, who doctors said would never amount to much, can in God's power overcome this world. God has surely blessed me with so much and He has proven the wisdom of this world is foolish, when doctors said I would never be independent. I do everything with my feet from writing, cooking, driving, typing this e-mail, and honestly anything. It is my desire to take God's Word and share with teens what hope that they can truly have in Christ.

### Cities Under Fire

Cities Under Fire are four guys who have a passion for God and a passion for music that impacts youth in a positive way. Andrew & Jared Hemmerling, the groups drummer and lead guitarist, have grown up on a tour bus traveling down the road with their family band Canada's Double Portion.

Cities Under Fire realize that music is a gift that can carry many different messages. They are here to present a positive message full of hope and faith in a life changing God. Their own personal relationship with the Lord motivates their desire to make a difference in this world. Their self titled EP contains all original material with straight ahead rock tunes and heart stirring ballads.
